

**As Artists:** We will look at the work of Jack Kirby and create our own superhero comic strips. We will look at proportion and how we draw people. We will focus in on faces and how to draw a face.

**Maths:** We will learn how to read, write and order number. We will learn how to measure using non-standard measures. How many giant leaps will it take to rescue the dog?

**Celebration!**  
We will invite real life Superheroes into school.

**As Gardeners** we will grow our own plants and vegetables from seeds in our allotment. We will learn what seeds need to grow and how we can care for them. What will happen to the seed?

## What's Your Superpower?

**ICT:** We will investigate using the green screen to create superhero films. We will use the beebots to create simple programmes and find out about algorithms.

**Music:** We will explore how sounds can be made and changed. We will explore how we can match sounds to words and make our own song.

**PE:** We will be continuing to work with St Neots football academy to develop our co-ordination and gross motor skills through multi-skilled activities.

**As Geographers** we will learn about physical and human features of places. While we are on undercover superhero missions we will map our school grounds and use our compass skills to navigate! Where is the villain? Which way do we need to go?

**As Scientists:** We will investigate materials which are waterproof. We will learn about electricity and how/where it is used.

### PSHCE & 6Rs:

We will be working on our 'resilience' R and how we can use it to help us become better learners. We will think about how to keep ourselves safe. Everybody has a superpower...what is yours?

**As Writers** we will read a range of superhero fiction. As we design our own comic strips we will learn how to write captions. Which adjectives describe the superhero you are?

**RE:** We will think about people who are special to us. We will learn about some significant people.
