

## As Artists

we will continue to use our observational art skills to create textures and movement in our artwork. We will learn to shade using different pencils to create different shades and tones.

## Maths:

We will be learning about multiplication and division and we will show our understanding using arrays and bar models. We will also learn to estimate and measure length, capacity and mass making sure we are accurate when recording measurements.

## German:

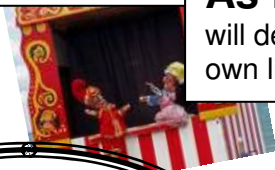

Can you greet your friends and use some German words?

## As Gardeners

We will plant beans and record their growth over time.

**As Designers** we will design and make our own lighthouses.

## Celebration:

We will host a phase celebration.

## As Historians

we will find out about a significant person from the past and learn how their life still influences us today.

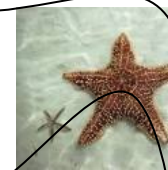

**Music:** We will compose our own percussion pieces and experiment with different speeds and volumes.

**PE:** we will develop our strength, stamina and balance to become better athletes.

## PSHCE & 6Rs:

We will continue to develop our resilience and relationships in the learning zone in order to learn independently. We will also be focusing on respect towards other people and their things.

**Why do we like to go to the seaside?**

## As Writers

we will write instruction texts and create our own extended stories, applying everything we have learned this year.

**ICT:** we will learn to code using Scratch Jr.

## As Scientists

we will investigate the plants and animals living in our school grounds and compare them to those at the seaside. We will also learn how electrical circuits work, and record them through drawings.

**RE:** we will continue to explore different religions and compare their religious symbols and places of worship.
