

As Artists, we will explore different ways of mark making which we will then use to help practise our observational drawing skills by drawing parts of buildings in Hemingford.

Maths: We will practise counting. We will use money to pay in our post office. We will learn the names and properties of common 2D shapes.

Celebration!
We will invite parents to take part in a workshop.

As Gardeners
we will plant seasonal flowers and vegetables in our allotment and be responsible for looking after them.

ICT: We will use programmable toys and the iPads to use simple programmes. We will also make a photo story film about our community.

What is it like to live in Hemingford?

Music: We will explore how to make sounds with different instruments and our bodies.

PE: We will be working with St Neots Football Academy, taking part in various team building and multi-skills sessions.

As Geographers, we will explore our local area. We will look at maps of our local area and make our own.

As Scientists, we will find out about different materials. We will investigate which properties mean a material is good for building.

PSHCE & 6Rs: We will learn the Golden Rules and school behaviour systems. We will think about how we can keep ourselves safe. We will learn to work together as part of a team and take care of our class pets.

As Writers, we will learn how to write our letters correctly. We will use our phonic sounds to write words and sentences.

RE: We will think about places that are special to us and different people.
