

RE and PSHCE:

We will be reflecting on the start of the year and revisiting the 6Rs and Golden Rules. In RE, we will be investigating what it is like to be a Christian in other parts of the world, as well as exploring Hinduism and Hindu Gods.

Maths:

As mathematicians, we will continue to develop our number fluency and understanding of place value and number, aiming for fluent and efficient calculations when working both mentally and when using written methods.

Music

As musicians, we will be working on reading notes on a musical scale. We will be developing our recorder skills, and practising active listening and composition.

Geographers:

As geographers, we will be investigating the human and physical geography of the United Kingdom, developing a strong understanding of national features. We will then be contrasting this with the geography of India, before ultimately deciding whether we'd prefer country or city life.

We will also be developing a range of geographical skills, including map reading and presenting the human and physical features of an area using a range of methods.

Computing:

As digital thinkers, we will be able to use and express our ideas through our understanding of different programs and apps. These techniques will enable us to use technology creatively.

Years 3 and 4:

City life or country life:
which would you prefer?

P.E:

We will be developing our hockey skills with St. Neots academy as well as the core skills of fair play and teamwork.

Outdoor learning

This term there are lots of jobs to do on our allotment with Mrs Edmunds. All the children will be given the opportunity to help!

MFL: French

Mme Guilloud will be developing our knowledge of the French language, focusing on basic phrases and communication.

Designers and Artists:

As Artists and Designer we will be evaluating and analysing the work of L.S Lowry. We will produce our own creative work inspired by his techniques, developing our skills in drawing and painting.

Readers and Writers:

As readers we will begin the term by trying to instil a love of books through regular individual and whole class reading. In reading groups, we will be focusing on skills for retrieving and inferring information as well as how to use a dictionary efficiently.

As writers, we will be exploring a range of text types, including traditional tales and performance poetry. We will be focusing on different ways of opening sentences and knowledge of word class.

Scientists:

As scientists, we will be exploring the human digestive system and looking into the purposes of the organs involved. We will look at each phase of the digestive process to understand how we, as humans, produce energy to live.

The children will develop their scientific skills by being given the opportunity to lead investigations, plan their own experiments and enjoy practical tasks requiring team work.
