

As Artists we will explore the work of Van Gogh and create our own art work in his style. We will also use our painting and sketching skills to create animal art work. We will also experiment with textiles.

Maths: How well can you use numbers? Can you add them and multiply them? Can they help you to solve investigations? Can you collect and organise data? Can you tell the time?

Languages: We are learning to greet our friends in different languages.

ICT: We will learn how to program robots and we will debug our codes when they don't work.

What if we couldn't use our senses?

As Designers we will use our knowledge about sounds and light to design and make our own instruments and kaleidoscopes.

Celebration: We will plan and host a celebration of our learning.

Music: We will learn how to compose and write music using instruments and signs.

PE: We will develop tactics in team games for attack and defence and we will develop our control in gymnastics.

PSHCE & 6Rs: We will think about some emotions people feel and the possible reasons why. We will discuss whether being kind is a choice and what this looks like on the playground. We will also focus on being reflective when we work and giving helpful feedback to each other.

As Writers we will be embedding our writing skills through extending our stories and non-fiction writing. We will be using our imaginations to create interesting narratives.

As Scientists we will investigate how humans and animals hear and see, and make comparisons between them. We will also learn how nocturnal animals have adapted to survive. We will investigate the needs of plants and animals.

RE: We will learn about symbols in religion and their meaning.
